Heroes Rise: HeroFall Activation Code [full Version]

Heroes Rise: HeroFall by Zachary Sergi Show Stats Restart Achievements Next you see that Processor has Jury restrained in a bundle of the copper wire coils she usually passes for hair. "Since his Powers are useless," Processor starts, "Jury tried to get fresh with my operating system using that advanced MeChip of his. Obviously that worked out very well for him." You smile at Jury, who scowls as he struggles against Processor's bonds. "Don't enjoy this too much, cutie," Jury hisses. "We Victons tend to have the last laugh." You stare Jury down, knowing that he's entirely defenseless at this moment—and that several cameras will film whatever you want to do next. Rock Jury out with a punch. Have Processor patch me through for an unblockable live speech. Create a photo moment that will really anger President Victon by kissing Jury.

About This Game

Would a hero like you assassinate the president of the United States to defend the right to be Powered?

As the corrupt President Victon launches his oppressive campaign of Powered Regulation, your Legendary heroic rise transforms into something much more: you must become a political icon fighting to restore Powered rights in America. This new battle takes a twisted turn when your once-greatest enemy, Prodigal, tells you President Victon's darkest secret....

Now you are faced with the biggest choices of your career: Do you trust the word of your archenemy? Will you evade President Victon's gang of criminal bounty hunters? Can you save your family and complete your rise as a Legendary hero?

"Heroes Rise: HeroFall" completes the epic Heroes Rise trilogy by Zachary Sergi, featuring the smash hits "Heroes Rise: The Prodigy" and "Heroes Rise: The Hero Project," interactive novels where your choices control the story. The Heroes Rise trilogy is entirely text-based—without graphics or sound effects—and driven by the vast, unstoppable power of your imagination.

All of your decisions lead to this epic conclusion, where you must truly define what you believe is right and what you stand for as a hero—and what (or whom) you're willing to sacrifice for those ideals. Play as male or female, gay or straight, and decide how your story will end. How many alternate endings can you unlock?

1/5

How High Will You Rise?

- Over 118,000 words
- Play as gay or straight, male or female
- Five possible romance options
- Save your parents from the Devoid prison for Powered criminals
- Unleash your mysterious "Infini" powers

With Rebellion neutralized and this many cameras watching, it's time for you to make a defining decision.
One that may affect your public image and idealistic stats more than any other so far.
• In an attempt to recruit Rebellion, take the risk of pulling him back into the panic room to tell him that Miss Artillery is alive.
○ Knock Rebellion out on camera, for maximum exposure.
○ Kill Rebellion to make an example of him on live 3V.
○ Cripple Rebellion off camera so he can't come after me anytime soon.

Great ending to one of the best Choice of Games series out there. The challenges you face in the game are fresh, unique, and creative. The choices you make, from the beginning of the first book to this last one all significantly affect the final outcome. It has some surprising twists and tense moments. Herofall also gives the whole trilogy huge replay value because of all of the possible endings.

My only complaint is that some of the relationship scenes seem forced, which is minimal compared to everything else Herofall does right. If you're a fan of Choice of Games, have played any of the previous games in the trilogy, or are just looking for a good eBook type game, definitely pick this up.. Great third part and finale to a very exciting choose-your-own-adventure trilogy!

Highly recommend the entire trilogy!

9/10. i cannot recommend this game (and the two previous instalments) enough. definitely worth the money.. An absolutely stellar final part in this amazing trilogy. If you've played the others in this series, and even if you haven't (though you most definitely should), you owe it to yourself to read this.. A GREAT ENDING TO AN AMAZING TRILOGY!

The game picks off IMIDIATELY were the last one left off. So i HIGHLY recommend you play The Hero Project before this game. If you didnt however you are givin a nice little recap of the events leading up to this game.

Wish that mass effect 3 gave all your choices meaning? THIS IS THE GAME FOR YOU! It brings back ALL the choices you made in the first two games (so long as you transferd the saves over) and puts YOU right were you deserve to be based on those

choices.

The consequences are real in this war. Are you ready?

10\/10 - Loved this game and anyone who loves a good story will feel the same. HIGHLY HIGHLY Recommend you buy the trilogy pack. And start from The Prodigy.

Cant wait to see what comes next in this universe, and if this is the last we see of it? Perfect way for it to end.

Thank you for this amazing story. Chickens forever.

=====EDIT 12V11V2014

Just noticed it says i only have .5 hours on record. I can assure you i've played the game multiple times pouring AT LEAST 20 hours into it.... Omg i wish there were more, I only wanted to buy the first one and it got so addicting that i actually bought them. It is so different to any other game and the story line could actually make an amazing movie or comic. An incredibly satisfying ending to a great trilogy, though some things do feel abit rushed; namely the characterization of Black Magic, who seems incredibly bipolar after the first game. Still, I really enjoyed the ending and how my decisions carried through to the end.. God awful name aside this game is actually pretty good. It's definitely the best out of the 3 games in the series. Thankfully the god awful alliance mechanic is gone and you don't have to worry about being 100% lone wolf or some bull crap like that and can experience the story much more organically. In it's place a much better mechanic is introduced- balancing regaining your powers and keeping your health up. The plot this time around is also much more exciting. Your characters are constantly on the run, keeping things exciting. There are some nice twists and turns along the way and I have to mention that I was actually genuinely impressed by one of the character of Prodigal. The game actually tries to experiment a little bit with the story telling with her character. Even though she is an ex villain she gets a chance at redemption and the player gets a chance to work alongside her and even romance her in a really adorable scene with very bitter consequences. Personally I'd love to see more of experimental things like that in the future, since I hardly think any Bioware game will ever allow you to form any sort of bond with the main antagonist, it's up to indie studios like Choice of games to play around with stuff like that.

Over all I'd recommend all 3 games. They are all on the short side but for that price they are just right. They are like little pocket rpgs that you can easily digest and forget, leaving knowing you had fun.Quick, cheep and fun. Like bargain bin drugs.. A game as brilliant and as fleeting as the charavters who inhabit it.
